C-Light™ Life preserver signaling emergency light
 #3355 Carded • #3354 Bulk

- Designed to meet the demands whenever a reliable efficient light is needed
- Slim lightweight design fits easily in a pocket, hangs discreetly when attached to life vest or jacket
- Waterproof and corrosion resistant case
- Twist on/off control can be operated by gloved hands and in adverse conditions
- Adjustable wrist strap provides a means for keeping light secure
- Intense incandescent light visible for up to two miles, depending upon conditions
- Operates on 2 "AA" alkaline or 2 "AA" 1.5V lithium batteries (5-year replacement life; 10-year useful life when used with lithium batteries)
- Operating life - More than 8 hours continuous @ -1°C (30°F)

Size: 5.6 x 1.3 in (14.3 x 3.2 cm)
 Weight: 1.3 oz (37 g) without batteries

C-Strobe™ Life preserver signaling emergency strobe #3959

- Intense strobe light visible up to 2 miles (3.2 km)
- Waterproof and corrosion resistant case
- Slim, lightweight design
- Comes with an adjustable Velcro strap; can be mounted on bicycle frame or pole, etc.
- Operates on 2 "AA" alkaline or 2 "AA" 1.5V lithium batteries (5-year replacement life when using lithium batteries; 1-year replacement life when using alkaline batteries)
- Operating life - More than 8 hours continuous @ -1°C (30°F)

Size: 6.0 x 1.6 in (15.3 x 4.0 cm)
 Weight: 2.6 oz (74 g)

SM-2 Automatic Crew-Overboard Marker Light with Bulkhead Bracket #3940.1

- Brighter light in all directions
- Upgraded polycarbonate blend case
- Improved impact rating; UV, temperature and chemical resistant
- Automatically rights itself and activates when in the water
- Extremely durable; withstands vigorous use
- Application: Perfect for commercial marine, petro-marine, cruisers, and any application needing a reliable COB light
- High intensity Xenon strobe

Size: 13.8 x 4.8 in (35.0 x 12.0 cm)
 Weight: 1.9 lbs (862 g) without battery; 3.3 lbs (1.5 kg) with battery

Nauticast A #2607 Class A - SOLAS Transponder

- The Nauticast Transponder is specifically designed for commercial shipping, for vessels which are subject to the SOLAS regulations.
- Makes a significant contribution to increasing safety at sea.
- The 3 in 1 Graphical Display includes 3 different views and adjustable zoom functionality.
- Software enables you to automatically check, read out/trace and evaluate the data received from your sensor interfaces.
- Measures just 28 cm W x 20 cm D x 6 cm H. Weighs 2.5 Kg
- Plug & play inventive technology at its best! Two sockets suffice to connect power, sensors and antennas and initial Transponder operation is up and running within minutes.

RapidDitch™ Express Buoyant abandon ship survival gear bag #2273

- Large capacity holds your essential gear for abandon ship situations
- Bag mounts to bulkhead via soft bracket (included) or stows in easy access location
- Four snap-hook tethers keep product in place
- Closed cell "life jacket" foam construction
- Internal pockets
- Water resistant, rugged fabric 600 Denier Polyester with large self-repairing zippers
- Built in Tether Strap for Bag to allow hands free use in water
- External Pocket allows for instant access to EPIRB

Overall Size:
 19"W x 15"H x 7"D
 (48.26 W x 38.10 H x 17.78 D cm)

Pathfinder 3 SART Survival Craft Radar Transponder for Search and Rescue operations #2714

- Enhances radar returns with 12 intense blips, whereby the first blip represents the SART
- Unit transmits through the 9.2-9.5 GHz band marine radar when interrogated by radar
- Vessel mounting bracket and collapsible pole stowed inside
- Exclusive ACR Test mode for visual/audible feedback
- High impact polystyrene case
- Compact 12.5 x 3-in unit easily packs into liferaft
- 10 meter (33 ft) lanyard for security
- Waterproof to 10 meters (33 ft)
- Requires lithium battery (5-year replacement life)
- Worldwide certification; complies with IMO/GMDSS, FCC Approved, MED
- Operational Life - 96 hours in stand-by mode; in excess of 8 hours in operational mode
- Application: mandatory requirement for all vessels governed by GMDSS; any yacht or vessel carrying more than one life raft to accommodate crew and passengers

GlobalFix™ 406 MHz EPIRB with Integral GPS Category I • #2742

- FastACQ™ GPS engine acquires LAT/LON from a cold start better than normal GPS engines
 - Floats upright with high visibility built-in strobe
 - Only EPIRB available that provides a GPS acquisition test, a full functional self test of internal circuitry, and battery voltage test
 - Class 1 battery for colder temperature operation; minimum 48 hrs @ -40°C (-40°F), 5 year replacement
 - Fully enclosed, high density, UV stabilized polyethylene bracket with hydrostatic release withstands extremely abusive environments
- Size: 17.5 x 4.75 x 3.5 in (44.4 x 12.1 x 8.9 cm)
 Weight: 2.3 lbs (1.04 kg)
 Operation: Automatically deploys when water depth is approximately 13 ft (4 m) and begins transmitting
 Waterproof: 33 ft (10 m)
 Certification: Approved by COSPAS-SARSAT, FCC, USCG, Complies with GMDSS, European MED

Satellite 406 MHz EPIRB Category I #2774

- Patented proprietary electronics package for faster, more stable 406 frequency transmission; full functional self-test including battery voltage and internal circuitry
 - Fully enclosed, high density, UV stabilized polyethylene bracket with hydrostatic release
 - Hydrostatic release automatically deploys EPIRB if vessel sinks to approximately 13 ft (4m); beacon automatically activates
 - World's smallest 406 MHz EPIRB that meets all world regulations
 - Built in strobe for enhanced location in poor visibility conditions
 - Single, three position switch for easy test and operation. Steady green LED indicates has passed full functional test, flashing red LED indicates unit is "ON"
 - Can be manually activated; self-buoyant - no external float collar to lose
 - 5 year limited warranty
 - 5 year replacement life (11 year useful life) lithium battery
 - Operating life: 48 hours @ -40°C (-40°F)
- Size: 17.5 x 6.25 x 5.5 in (44.5 x 15.8 x 14 cm)
 Weight: 4.5 lbs (2kg)

406 MHz GPS Personal Locator Beacon #2897

- Smallest, lightest, most function-rich PLB alerts Search and Rescue to your precise location in an emergency.
 - Exclusive built-in GPS technology
 - 100 meter position accuracy when GPS coordinates are present.
 - Easy to activate by novice user, simply deploy antenna to reveal "ON/OFF" activation button, hold for 1 second.
 - PLB has circuitry, battery power/voltage and GPS acquisition test features built in.
 - Exceeds required 24 hour operating life at -20°C (-4°F), typical operating life: 40 hrs @ -20°C (-4°F), 8 hrs @ -40°C (-40°F).
 - Attachment clip mounts to back of PLB to easily clip onto life jacket, belt, backpack, etc.
 - Flotation pouch attached to prevent loss if dropped in water
 - High impact plastic case designed to withstand exposure to UV rays, oil, sea water and raft packing.
- Size: 1.25 x 5.81 x 2.31 in (3.71 x 14.75 x 5.8 cm)
 Weight: 10.4 oz. (345g) with flotation pouch

Hemilight™ Personal Emergency Locator Light #3765 (Manual Activation) Bulk #3766 (Automatic Activation) Bulk

- Bright, steady light of .75 cd intensity visible all directions of the upper hemisphere
 - Attachment tabs accommodate up to 2.5 cm (1 inch) wide webbing
 - Dragon Clip™ (included) provides secure retro-fit attachment to almost any style life jacket in a matter of seconds
 - Single piece construction for ease in handling during installation or in a crisis
 - Compact size for ease of storage
 - Operates in fresh or salt water
 - Operating life - Exceeds 8 hours @ -1°C (30°F)
- Size: 7.5 x 4.1 x 3.8 cm (2.9 x 1.6 x 1.5 in)
 Weight: 100.0 g (3.5 oz)

FireFly3® SOLAS Waterbug™ Water Activated Rescue Strobe Light Product No. 3996.3 Carded/3996.4 Bulk

- 360° high intensity Xenon strobe visible for up to 2 miles
 - Waterproof - Factory tested to 10m (33 ft)
 - Large sliding switch allows for easy operation by gloved hands
 - Newly-designed base platform allows unit to stand upright easily
 - Conceived as state-of-the-art replacement for famous Firefly forerunners, 4F and 4G
 - Stainless steel retainer securely attaches removable battery door to case
 - Integral strapping slots provide a secure anchor point
- Size: 4.75 x 2.2 x 1.2 in (12.1 x 5.6 x 3.0 cm)
 Weight: 4.8 oz (160 g)

L8-3 #3720.0180 Bulk Water activated personal rescue light for life vests and rafts

- Lamp and lens combo produces brilliant light visible for over one mile
 - Operates in fresh or salt water
 - Standard length lead wire 18 in (46 cm); custom lengths available
 - Water activated battery has extended useful life with plugs left in place
 - Operating life - Exceeds 8 hours
- Battery Size: 3.7 x 1.0 x .42 in (9.4 x 2.6 x 1.0 cm)
 Weight: 1.8 oz (51 g)
 Certification: USCG 161.012/22/0 approved; CE
